MAP OF CHILE BY REGIONS

GENERAL BACKGROUND (A)

Location, area and Extension

Chile is located in the south west part of South America stretching as far south in Antarctica as the South Pole with Easter Island, in the South Pacific, to the west of mainland Chile.

On the American continent, Chile stretches from parallel 17° 30' South latitude in the north boundary to parallel 56° 32' South latitude in the southern part of South America.

The Chilean Antarctic territory comprises the whole of the area located between meridians 53° and 90° west longitude as far as the South Pole at minus 90°.

The national territory comprises several islands in the Pacific Ocean, which add to the country's territorial sea. The nearest to the continent are the islands that form the Juan Fernández archipelago and San Félix and San Ambrosio. The most distant from the mainland are Sala and Gómez, and Easter Island, also known as Rapa Nui.

The latter is located at 27° latitude South and 109° 30' longitude West, opposite the port of Caldera and 3,760 kilometres away from the mainland.

From the Concordia Line to the South Pole, the country is over 8,000 kilometres long. The area of Continental, Antarctic and Oceanic Chile is 2,006,626 square kilometres, with 756,626 sq. km. corresponding to Continental Chile and 1,250,000 sq. km. to the Chilean Antarctic Territory.

CONTINENTAL CHILE	756,626 sq.km.
Agricultural lands	16,560 sq.km.
Grazing lands	129,300 sq.km.
Forest lands	84,200 sq.km.
Non-productive land	526,566 sq.km.
CHILEAN ANTARCTIC TERRITORY	1,250,000 sq.km.
TOTAL	2,006,626 sq.km.

Boundaries

Chile is bounded on the North by Peru, by a border line known as "Línea de la Concordia"; on the East by Bolivia and Argentina, mainly by a line that runs through the highest summits of the Andes; on the South by the South Pole, and on the West by the Pacific Ocean, including 200 nautical miles of territorial waters.

Climate and Natural Resources

The North:

Climate: Desert

Natural resources: Nitrate, copper, iron and other minerals, valleys suited for agriculture, sea foods.

The Center:

Climate: Mild and temperate, with rains in winter.

Natural resources: Agricultural and grazing lands, forests, hydroelectric power (rivers), copper, coal, sea foods.

The South:

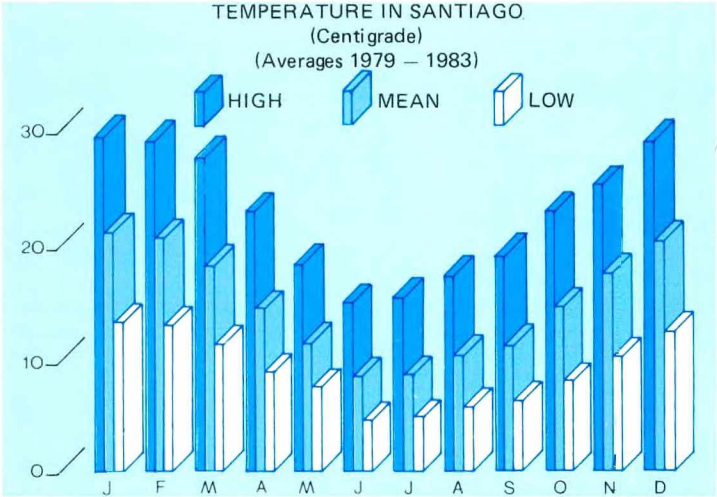

Climate: Temperate and rainy

Natural resources: Agricultural and grazing lands, forests, hydroelectric power (rivers), copper, coal, sea foods.

The Austral Region:

Climate: Steppe, cold.

Natural resources: Forests, petroleum, natural gas, sheep, sea foods.

POPULATION

General background:

According to different censuses, Chile had 1,103,036 inhabitants in 1835 and 2,695,625 inhabitants in 1895. In 1907, there were 3,231,022. inhabitants, which rose to 5,023,539 in 1940 and 7,663,171 in 1960.

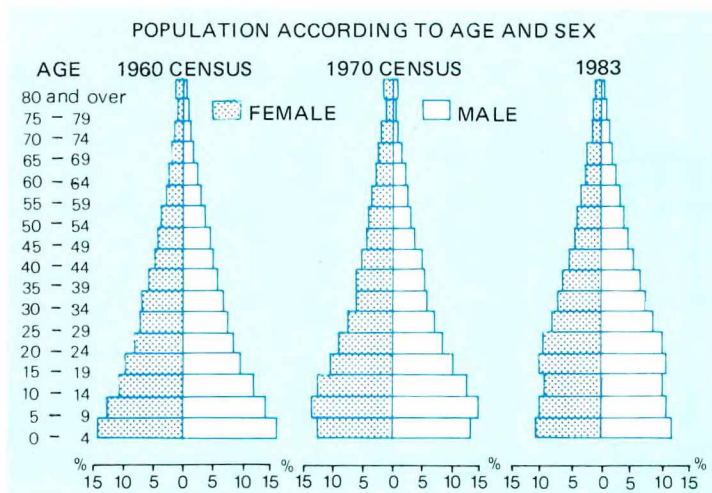

The census taken in 1970 showed a figure of 9,339,665 inhabitants and the latest census, of april 1982, calculated the country's population at 11,275,440 inhabitants.

This sustained growth can be mainly attributed to the persistence, until 1962 of moderately high birth rates (37.5 ‰ as an average) and to the decline in the mortality rate, which resulted in an increase in average life-span of the Chilean from a level of 65.7 years in 1975 to 66.7 years in 1979 and 67.8 years in 1983.

In the last years, the Chilean population has been under going a slow process of aging due to a rapid drop in the fertility rate. At present, the birth rate fluctuates at about 2.3 ‰ per year and the general mortality rate at 0.6 ‰, with a vegetative growth of 1.7 ‰ per year.

Rural population prevailed up to 1940. Until 1875, it corresponded to 73% and in 1920 to 54%. As from the 1952, this situation was reversed; estimated figures for 1983 point out that the rural population reaches a mere 17.4%.

At present, Chile has a population density of 15 inhabitants per square kilometre, which is one of the lowest figures in Latin America. This is due to the fact that over 70% of the continental territory is desert, mountain or possesses some other kind of geographical feature that makes it unsuitable for human settlements.

GOVERNMENT SYSTEM: POLITICAL AND ADMINISTRATIVE ORGANIZATION

According to the 1980 Constitution, Chile is a unitarian state. For administrative and interior government purposes, the country is divided into regions, and these, into provinces. For the purpose of local administration, the provinces are subdivided into communes.

The regional, provincial and communal government systems are hierarchically structured. At the head of each region's administration is the Intendant, who is in charge of directing and administering the Region, and is advised by a Regional Council of Development and a Regional Secretariat of Planning and Coordination.

The government and administration of each province are in charge of a Governor, who is subordinated to the Regional Intendant whom he represents. He is assisted by an Advisory Technical Committee and by a Provincial Council.

In charge of communal government is the Mayor, assisted by a Communal Council of Development and by a Communal Secretariat of Planning and Coordination.

The basis of the system is the commune, since it is there that organized participation of the community takes place. Within the system, the Ministries act in a decentralized way by means of Regional Ministerial Secretariats.

The Regions and their Capitals

Decree Laws N° 575 (7.10.74), 1,250 (10.27.75) and 1,317 (12.31.75), divide the Chilean territory into thirteen Regions:

NAME		CAPITAL
I	Region: Tarapacá	Iquique
II	Region: Antofagasta	Antofagasta
III	Region: Atacama	Copiapó
IV	Region: Coquimbo	La Serena
V	Region: Valparaíso	Valparaíso
VI	Region: Libertador General Bernardo O'Higgins	Rancagua
VII	Region: Maule	Talca
VIII	Region: Bío - Bío	Concepción

NOTES

- (1) Figures estimated up to June 30th of 1983.
- (2) Life expectancy is defined as the number of years that a given newborn generation will probably live.
- (3) Includes scientific-humanistic and technical-professional education.
- (4) Including all range of crops.
- (5) It refers to slaughtered animals.
- (6) Relates to the destination of total unloaded merchandise.
- (7) Including cements, concentrates, slags and ores.
- (8) Including low and high octane gasoline.
- (9) Including domestic and aviation kerosene.
- (10) Including motor-scooters, motor-cycles, tractors and ambulances.
- (11) Private Sector information corresponds to approved building permits.
Public Sector information refers to building that is under way.
- (12) Including private cars, rental and station wagons.
- (13) Including light trucks, trucks and vans.

- (14) Including common gas, blast furnace gas and natural gas.
- (15) Variation from December to December.
- (16) Corrected by the U.S.A. Wholesale Price Index.
- (17) The real rate is obtained by deflating the nominal rate by the variation of the consumer price index for the period.
- (18) The rates of interest for indexed operations are expressed in annual terms and those for non-indexed operations, in terms of 30 days.
- (19) Modified Statement: Considers imports at their f.o.b. value, thus the figures on non financial services change. It considers as reserves, only those of the Central Bank. Therefore, short term capital flows of the banking system are recorded not as variation of reserves, but as other capital, banking sector. The figure on holdings of international reserves considers gold value on the basis of its market price. This modified statement makes a distinction between the change in holdings of reserves, and the change in reserves due to balance of payments transactions. Therefore, the change in holdings is adjusted, if necessary, by: Monetization/demonetization of gold, allocation/cancellation of SDR's, and valuation changes.
- (20) Banco del Estado is not included here, because it is included in the Banking System.
- (21) As of 1979, it includes capital flows of development banks.
- (22) Irrigation and flood control projects are considered parts of "Engineering and other projects".
- (23) Includes "quillay" bark, dried mushrooms and other.
- (24) Corresponds to daily average of programmed rations.
- (25) Corresponds to the School Meal Programme in primary schools; this programme covers children between ages 6 and 14.
- (26) Corresponds to the School-Children Homes Programme, consisting of 4 meals a day.
- (27) Figures corresponding to the polles performed during the october-december period of each year, with the exception of 1982 where same was performed in the october-november period.
- (28) As of 1982, figures correspond to the 15 years of age and above population.
 - (a) Figures calculated on the basis of population estimates performed by INE, for June 30th, 1970, and June 30th, 1983.
 - (b) Figures calculated by INE and CELADE on the basis of population estimates for the period 1980 to 1985.
 - (c) Preliminary figures corresponding to the XVth National Population Census and to the IVth Housing Census.
 - (d) Cumulative annual growth rate as determined by information obtained from Census taken in 1970 and 1982.
 - (e) Excludes US\$ 345.7 million corresponding to Pre-Payment of Capital.
 - (f) Excludes US\$ 422.9 million corresponding to Pre-Payment of Capital.
 - (g) Corresponds to the observed value resulting from the supply and demand of international exchange operations.
 - (h) Information related to banks in liquidation is excluded.
 - (i) Corresponds to annual rate at 180 days.

- (j) As of the July-September, 1983 poll, information refers to the 15 years of age and above population.
- (k) Figures as of April 30, 1983.
- (l) Including Agriculture, Mining, Electricity, Gas and Water activity.
- (m) Includes restructuring of the external Debt for maturities at medium and long-term corresponding to 1983-1984 and external short-term financing debt corresponding to 1983, refinanced at medium-term. Individual restructuring agreements were signed between the months of January and March, 1984.
- (*) Provisional figures.
- (0) Information not available.
- (00) Balance of Payments figures on exports and imports do not agree with those of export shipments and import registrations, because they are different concepts. Both export shipments and import registrations are adjusted for balance of payments requirements.
- (000) Figures for the 1980-1983 period correspond to National Customs Bureau, and those for the 1979 period, to the Central Bank of Chile.
